Experience

Frontend & Backend Engineer | WAYbetter '11-'13
Joined an early stage startup and was involved in all aspects of the product. I was half the development team who built the entire tech stack of the service - front to back.
Took major part in making product decisions about UI, UX, marketing, and customer relations.

JavaScript Developer | Davidson Institute of Science Education '10
My first encounter with JavaScript while developing math games.

Web Developer | Self Employed '05-'08
Started out building websites for friends using HTML, Flash and ActionScript. Discovered my love for graphics exploring Photoshop.

Education

M.Sc. Computer Science | Weizmann Institute of Science '08-'10

Spent 2 years amongst the smartest people in Israel. Learned how to do research and how to present my work. Published my thesis on FUZZIEEE '12. GPA 95.

B.Sc. Mathematics | The Hebrew University '05-'08

Learned how to think abstractly and to appreciate the beauty of rigor. Topology was my favorite course. GPA 87.

Extracurricular

Civil Hacker | The Public Knowledge Workshop '12-'13

Volunteer as web developer to help liberating government data.

Volunteer | Israel Bicycle Association '09-'11

Volunteered for making Israel more bicycle friendly. Gained experience in working with bureaucratic companies and officials.

Barista | Tel Aviv '04-'05

Mastered the art of making the perfect cappuccino.
